

CHOOSING A TILER - CHECKLIST

- Tiler experience Checked.
- References and previous work inspected.
- Ask tiler if any issues with substrate or structure.
- Discuss tiles to be used and how corners and cut tiles will be managed e.g mitred edges and / or aluminium angles
- 3 quotes obtained
- Written Quote Supplied
- Before work commences:**
- You have discussed with the tiler how the tiles will be set out e.g. orientation of tiles, where tile cuts will be laid etc.
- Tiler has checked tiles for any faults or batch variations
- You have discussed grout joints with the tiler and have determined the best size joint to be used.
- Tiler has laid out tiles to ensure there is a good mix of variation and pattern before commencing work.
- Grout colours have been chosen and details passed on.
